We have posted an IR survey on our website. We will continue to improve this report while taking your feedback into account.

(Content Creation Solutions Business)

(1) 3-month moving average ARR of Clip Studio Paint subscription sales

(Unit: One million yen)

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2018							98	165	182	191	206	222
2019	240	259	280	299	318	334	356	393	424	453	481	503
2020	530	556	585	620	668	710	752	811	882	959	1,032	1,084
2021	1,144	1,191	1,242	1,306	1,380	1,436	1,480	1,538	1,595	1,660	1,725	1,768
2022	1,834	1,884	1,966	2,046	2,124	2,173	2,225	2,309	2,375	2,450	2,506	2,545
2023	2,633	2,676	2,746	2,531	2,523	2,462	2,668	2,755	2,956	3,074	3,178	3,236
2024	3,293	3,358	3,439	3,527	3,631	3,713						

Note: ARR (an abbreviation for Annual Recurring Revenue, which is the revenue assumed to be earned in a year, assuming that all contracts are renewed at the time of contract renewal) is a three-month moving average due to monthly fluctuations caused by the number of days per month (28 business days for regular months and 35 business days for special months) depending on the settlement method and the fact that the settlement is adjusted for each quarter-end month.

<June Topic>

ARR has reached an all-time high.

(2) Clip Studio Paint churn rate (paid subscriptions)

(Unit: %)

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2022	13.2	11.2	12.4	11.9	11.9	11.5	11.3	11.1	11.2	11.0	10.5	10.5
2023	9.6	8.7	10.3	7.9	17.3	16.5	10.3	10.1	10.0	9.4	8.9	9.5
2024	6.1	5.8	7.8	6.5	4.5	5.3						

Note 1: This indicator is the cancellation rate (customer churn rate) based on the number of customers with paid subscription contracts for the SaaS version of Clip Studio Paint. It is calculated based on the number of cancellations during the month relative to the number of subscriptions as of the end of the previous month; if one customer has multiple subscriptions, each subscription is calculated as a separate subscription. In addition, due to the nature of the product, which offers monthly subscription plans that can be used only when necessary, in addition to annual subscription plans, there are cases where the same customer repeatedly subscribes and cancels subscriptions.

Note 2: In May 2023, we made changes to the payment system used for subscription contract payments from Windows and macOS environments, with the aim of strengthening security to prevent normal payments from being hindered due to unknown attacks. Although the churn rate temporarily increased as some subscribers did not re-register and some contracts were canceled by the re-registration deadline at the end of May, the number of new contracts continued to trend steadily. It has been stable since July 2023.

Content Distribution Solutions Business

(1) Number of DC3 solution master contents

(Unit: Items)

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2023	—	—	—	—	—	—	—	—	322	630	1,169	1,789
2024	1,948	2,122	2,380	2,772	3,047	3,335						

Note: The number of master contents is the total number of all DC3 master contents registered to services that incorporate DC3 solutions. Master content is like a content mold in the DC3 world. By manufacturing DC3 content from the master content, each piece of content is distributed as a unique "thing" just like in the real world. Using electronic comics as an example, it is similar to the original data (master content) being based on the original drawings, and the books (DC3 content) are printed based on that data.

(2) Cumulative number of DC3 solution transactions

(Unit: transactions)

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2023	—	—	—	—	—	—	—	—	266	1,955	5,074	8,910
2024	11,016	12,875	15,908	17,212	20,954	33,808						

Note: The number of transactions includes all transactions such as lending access rights as well as transfers.

<June Topic>

Due to the collaboration with the film "A Few Moments of Cheers (Suufunkan no Eru wo)", the number of DC3 content transactions increased significantly.

	Subscriptions	274	279	286	293	302	309						

Note: Three-month moving averages are used because the amount fluctuates on a monthly basis due to the number of days in a month (28 business days for regular months and 35 business days for special months) depending on the means of settlement and the fact that settlement adjustments are made for each quarter-end month.

Differences from consolidated results and other indices may arise due to the inclusion of intra-group sales and the fact that amounts less than one million yen are rounded down in the calculation process.

“Subscriptions” is the sales from Clip Studio Paint subscriptions.

“Tool sales” includes sales of the downloadable version of the one-time purchase model and corporate licenses.

“Services” includes sales from Clip Studio web services.

“Distribution solutions” includes sales related to e-books.

<June Topic>

The year-on-year change in total sales was 125%, the highest of the quarter. Due to the three-month moving average, tool sales do not include the results of measures taken for the major version update of Clip Studio Paint in March 2024.
